Transformation

# 7 Layers of Institutional Transformation

A graphic consisting of a light pink triangle pointing downwards, with a red, textured, petal-like shape at its base. The text 'Academic Layer' is written in black inside the triangle.

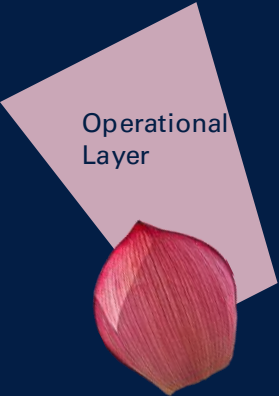

Academic  
Layer

### **Key Focus Areas**

- Curriculum redesign with stackability
- Incorporating standardization to support stackability
- Faculty role transformation

### **Advice for Institutions**

- Integrate stackability into curriculum planning
- Map pathways from micro-credentials to degrees
- Engage faculty in collaborative development
- Balance standardization with flexibility to maintain innovation

A graphic element on the left side of the slide, consisting of a pink triangle pointing downwards and a red flower-like shape at its base.

Operational  
Layer

### **Key Focus Areas**

- Adjusting operational processes
- Simplifying enrollment and registration
- Assessment and certification methods

### **Advice for Institutions**

- Simplify enrollment systems for micro-credentials
- Develop competency-based assessments aligned with outcomes
- Implement secure digital credentialing systems

### **Key Focus Areas**

- Investing in robust platforms (LMS, digital badges)
- Enhancing the learning experience with technology

### **Advice for Institutions**

- Choose scalable, integrated technological solutions
- Ensure seamless integration with existing systems
- Provide training for faculty and staff on new technologies

A graphic consisting of a pink trapezoidal shape with a red, textured, petal-like shape overlapping its bottom edge. The text 'Financial Layer' is written in black inside the pink shape.

Financial  
Layer

### **Key Focus Areas**

- Developing sustainable pricing models
- Diversifying revenue streams through new demographics and partnerships

### **Advice for Institutions**

- Balance affordability for students with program sustainability
- Explore funding opportunities and industry partnerships
- Monitor financial performance and adjust strategies accordingly

### **Key Focus Areas**

- Enhancing student experience through stackability
- Effective communication with all stakeholders
- Community building and engagement

### **Advice for Institutions**

- Clearly communicate stackable learning paths
- Provide robust support services (advising, online resources)
- Foster a sense of community among learners and alumni

A graphic element on the left side of the slide, consisting of a pink triangular paper-like shape and a red rose-like shape.

Governance &  
strategic  
Layer

### **Key Focus Areas**

- Strategic planning and market analysis
- Quality assurance and accreditation alignment
- Decision-making processes involving stakeholders

### **Advice for Institutions**

- Engage stakeholders (faculty, industry, students) in decision-making
- Establish clear policies and standards for micro-credentials
- Align offerings with industry needs and accreditation standards

Two overlapping pink geometric shapes, a triangle and a circle, on a dark blue background.

Cultural  
Layer

### **Key Focus Areas**

- Embracing change and fostering innovation
- Supporting faculty and staff through professional development

### **Advice for Institutions**

- Lead by example; leadership should champion micro-credentials
- Promote collaboration and sharing of best practices
- Recognize and reward contributions to innovation and program success
